EVO Analytics and Insights + Co-pilot Analytics Skill

Visual Reporting and Analytics.
Provides users access to Preconfigured dashboards reports and Insights for each of our products

The Analytics Skill allows users to use natural language to help discover and query data available to them in Analytics. This is the key enabler of our ability to 'unlock our customers data'. This has been designed to improve user productivity enabling them to get answers to questions without having to run multiple reports

DBS Update Service tracking in product

Disclosure &
Barring Service

The Update Service

A Status check allows organisations to see if any relevant information has been identified about the individual since their Certificate was last issued.

The outcome of a valid Status check will be one of the following:

- **This Certificate did not reveal any information and remains current as no further information has been identified since its issue.** This means that the individual's Certificate contains no criminality or barring information and no new information is available.
- **This Certificate remains current as no further information has been identified since its issue.** This means that the individual's Certificate did contain criminality or barring information and no new information is available.
- **This Certificate is no longer current. Please apply for a new DBS check to get the most up to date information.** This means that the individual's Certificate should not be relied upon as new information is now available and you should request a new DBS check.

The Access Group

Perform a Status check

All fields must be completed

Certificate number

[What is this?](#)

Applicant's surname on Certificate

Date of birth on Certificate, for example 14 7 1997

Day Month Year

By continuing, you confirm you have the consent of the person being checked and understand that they will be made aware that you have performed a Status check on their Certificate.

or [Cancel](#)

No more manual checking on the update service website, leave this to us and we will use the certificate number the candidate provides on the candidate form, and we will check the status of the certificate for you. Enabling you to carry out more added value tasks
